

Hot H2O Now Kit

- ✓ Patent pending technology
- ✓ Easy to install
- ✓ 5 year warranty

Delivers Hot Water Where You Want it - Fast!

Do you have trouble providing hot water to some of your guest rooms when you have:

- Low occupancy?
- High occupancy?
- 7 – 9 am?
- 5 – 7 pm?
- Anytime of the day or night?

Is the problem:

- In a guest room
- Public restroom
- Employee lounge
- One side of the building
- Top floors
- Lower floors

Hot Water Delivered - Guaranteed -

"In simple terms, hotel/motel guests pay you for a bed to sleep on and a hot shower in the morning. We can't help you with the bed, but with the Hot H2O Now Kit we can guarantee if you have hot water to deliver we'll get it to every guest room, public restroom or employee lounge anywhere, anytime."

*Kevin Hall, President
US Energy Solutions*

Do you:

- Send housekeeping into an unoccupied room at 5:00 am to run hot water into a tub?
- Load the hotel as guests arrive starting with the rooms that get hot water the fastest even if it means the most expensive room(s) remain empty
- Pray that no one complains but if they do you comp their dinner, give them a free massage or refund their money

Have you heard what guests are saying about your hotel when:

- They call the front desk
- They post a review on the internet
- They tweet about their experience at your hotel

We are sure you and the entire staff have heard all about it and you have resolved yourself to the fact that you have 2 choices:

- Live with it
- Spend tens of thousands of dollars to fix it

Now you have a better choice. Call or email to find out how you can have hot water where you want it, when you want it – guaranteed!
